#### THE SENSATION ENDED.

It will doubtless astonish a good many people that President Taylor and for looking for the beginning of the 25 to Mormon higera about this time,

Quite as probable wonderful performance in the same from newspapers at the present rate direction, but both those gigantic unsuggregates \$1,500,000 a year, or about derinkings were trufes as compared with three per cent, of the total revenue from

they could be impuler, more prosperous or successful than right here in Utah, where they have planted themselves so firmly that the government itself cannot uproof them.

As the Mexican scheme will probably on pass out of memory, it necessarily being a sensation of a day, the question now is, what plan for disposing of the Mormons and their "question" will next be devised by those who are so anxious to do something in the premises?

#### NO REPUBLICANS.

The Republicans who are trying to convince the country that it will be Cleveland's duty as a patriof, devoted to the good of the nation, to appoint a fair sprinkling of Republicans to office, should take the Blue Book, and soan its two thousand pages of names of office holders, and see how many. Democrats Republican State committee has made they can find among the number; his report, from which it is shown that they might then look over the list of appointments that President Arthur is making now-a-days in order to fill every office before Mr. Cleveland is inaugurated, and ascertain how much of a sprinkling of Democrats is in the nominations. If there is one thing that President Cleveland should avoid doing it is the appointment of Republicans to fining his operations larget to Maleir (Section 1). elected President. The people were can committee's expenditures in tired of Republicans in office; they were sick of Republican rule, and they chose Mr. Cleveland instead of Mr. a change, and should be the man to carry out their wishes in the premises, hence they elected him. If he should do as Republican Presidents have been Republican National committee last doing and as Blaine would have done, year. the people would be compelled to say that they had been deceived in the man; that their confidence had been misplaced, and that they were rictim-ised. The sprinkling of Republicans that President Cleveland should apeprinkling of Bemberats that Artifur, Garfield Hayes and Grant wairfed to get to San Brancisco he appointed to office, and any would have to put up \$100 for the ride, other "sprinkling" would be a violation of the confidence and trust repored in him. When the people grow fired of and Omaha. Democratic officials they know how to bring about a change, but when they say they want Democrats in office. they mean it. They do not mean that they want some Democrats and. some Republicans.

A SKILLED Workman of New Bedford lately said that he would be better off and his family would be better provided for if he were to give up his situation and wage pittance at the mills and accept the city's charity. There must be something wrong in the economic system when a willing laborer makes such a statement.

NEWSPAPER POSTAGE.

The committee on postoffices and post roads, in the House of Representatives, have agreed upon a substitute for the various bills before it with reference to newspaper postage, the new bill fixing the rate on news-THE DAILY HERSID IS published every morning. Mondays excepted, at The Hersiand Block, corner West Temple and First South Streets, Salt Lake City, by Tirk Hersiand Printing and Publishes 100 per publishers and news agents, at one Tany. Subscription price, \$10.50 per sent. It is presumed that the new bill will also allow papers to go through year at the same rate. To weekly subject to any place within the court, of publication. within the county of publication.

The manner in which the government THE SERI-WELLY HERELD IS published has treated the newspaper publishers Wednesday and Saturday morning, in the matter of postage has been any at \$3.50 a year; six months, \$1.75; postage thing but fair, considering the liberality shown to others with respect to post-THE WHEELY BERALD is published every age. The postage on scaled letters reduced to a nomiheeti nal rate, and that on transient papers, periodicals, etc. has warding information to this office when been cut down one-half, but for ten or twelve years the newspaper rate has remained the same. What makes it worse is the fact that when the law One of the Most Powerful Dramas was changed the postage was made payable by the publisher, whereas before was collected from the subscriber. The postage on a single paper is a trifling many people that President Taylor and amount, and would not be felt by the party have returned without bringing a individual, but when those small sums section of Old Mexico with them; and fall upon the publishers the tax be-will also be a tonishing to some that Utah remains where it was, and is with the publishers of country journals. peopled largely by the Mormons. One of the cheap and senseless sensations of the day is this striff about the Mormons leaving Utah and taking up their abode in a foreign country. It is would necessarily narrow the profits.

It is to be hoped that the present Congress will at least pass the bill reducing newspaper postage as proposed, and that in the near future the tax will be entirely taken off publishers, who will be able to give the money back to the people in the form of better and cheaper newspapers.

A CHILD!

Tainorray, GA, Sept. 12, 1884. My little son, now seven years old, broke out when a balle three weeks with what the doctor-called eccesses, beginning on the head and gradually spreading over his whole body. He was treated for fice years or more by various physicians without relief, and the Hille boys beatth was completely bedien down. About a year ago I was induced to use on him swift's Specific, and two bottles circle him sound and well, and there has been no sign of a return of the disease.

AUBUEN, ALS. Sept 8, 1884.—I am an old pharmacist and have had to do largely with blood diseases for over twenty-five years. I have dealt in all kinds of blood purifiers, and do not hesitate to say that Swift's Specific is the best and has given more general satisfaction than any other I have ever bandled. Lass year a young student came to my store emacaisted and covered with sores. Trecommended S. S. S. He took only three bottles and the sorre disappeared, his throat healed up and his skin cleared off. His flosh was smooth and fresh as that of a child, and he has gained ten pounds. I scarcely knew him when he returned after an absence of several weeks. He claimed to be renuwed in flesh and spirit. A number of other cases less malignant have come under my observation, and all with the best results. Swift's Specific is an excellent tonic, and as an antidote for maistin has no superior. Many ladies are using it as a tonic for general debility, and find it the most satisfactory one ever used. I have been dealing in Swift's Specific for figures or more, and an antisfed that I do not place too high an estimate upon its merits.
